# "ZENITH" ELE 1
ELECTRIC STAPLER

Materials:

"ZENITH" ELE 1 offers some interesting technical innovations and includes an extractable "ZENITH" 578 stapler. The material used for the molding of the plastic parts (ABS) complies with the highest safety regulations which requires the use of self-extinguishing resins. The ABS parts have a great mechanical resistance; the electric and electronic devices are subjected to strict tests and inspections with respect to their reliability and performance.

MADE IN ITALY

Technical / functional features:

• **Stapling:**			
• **Staple type:**		24/6 - 24/8	26/6
• **"ZENITH" staple ref.:**		515-115	512-112
• **Loading capacity (N° of staples):**		200	250
• **Stapling capacity (N° of sheets - 80 g/sqm):**		25 (24/6 - 26/6 staples)	45 (24/8 staples)
• **Max. stapling depth (for paper insertion):**		60 mm	
• **Colour:**		RED	
• **Packaging:**		box containing a stapler and three boxes of "ZENITH" staples (ref. 115/Z, 112/Z and 515/8)	
• **Box dimensions:**		34 x 13,5 x 12 cm	
• **Weight:**		2650 g (net) / 3050 g (gross, including three boxes of "ZENITH" staples)	
• **N° of items per carton:**		4	
• **Carton dimensions:**	38 x 32 x 29,5 cm (AxBxC)		
• **Carton weight:**	13 Kg		

Loading system: top loading; pull-up the cap and insert staples
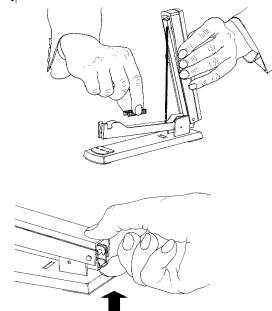

Voltage: 220 V - 50 Hz

Fuse 5x20 T 1,25A 250V (homologated IMQ)

Patented anti-jamming device.

Descriptive notes:

"ZENITH" ELE 1 offers a more effective and efficient way of stapling especially for office work that requires continuous stapling. A very sensible device guarantees the stapler will work even for 2 tissue papers; in addition the possibility of stapling different thicknesses is adjustable by the user.

Quality: to maintain the high quality standard guaranteed by all "ZENITH" products, each stapler is tested piece by piece.

In addition: safety is assured by the double electric insulation and a device which stops the stapler if the cover is not properly closed or in the right position. "ZENITH" ELE 1 is guaranteed by the **"IMQ"** (quality and safety trade-mark for electrical appliances and anti radio noises) and it is also in compliance with the standard required by the european regulations (**"CE"** trade-mark).

With the "ZENITH" ELE 1 and the provision of the "ZENITH" 578, you have both a strong and reliable electric stapler (proven to staple millions of times) and a practical and efficient desk stapler.
