## "Open & close" device:

BILCOM ref. 198 blister pocket punch, is distributed in Italy exclusively by **BALMA, CAPODURI & C. s.p.a.**, which assures a good after-sale service too.

## Descriptive notes:

Bilcom 198 pocket perforator is provided with a plastic base for paper disks collecting and with a guide for a quick paper positioning.

It is handy and practical, and its packing, bivalve blister, is equipped with a little base allowing its easy leaning on a plane surface. Thus, it is perfectly suitable to be displayed in stationery shops. It can punch up to 12 sheets of paper.

## In addition:

Thanks to its "stop & go system" device, you can open the punch when you need it, and then close it after use just to be able to slip it into your pocket, your handbag, your school-case, etc.

By positioning the adjustable guide it is possible to make 2 or 4 holes centred on the long side of the sheet UNI A4 size, etc
