• Weight net/gross (g):	390/443 g
• Dimensions (cm):	38,4 x 11,3 x 3,8 h
• Box dimensions (cm):	38,5 x 11,5 x 4 h
• No. of pieces per carton:	20 (packed in boxes of 5 pieces)
• Carton dimensions (cm):	52 x 44 x 22 (AxBxC)
• Carton weight:	Kg 10,5

Spare parts:

REF.	Description	Pieces per packing
• K 13	Spare cutter - straight cut	1
• K 12	Spare cutter - perforation cut	1
• PT – 210 Mat	Mat	2

CARL DC-100N rolling slicer trimming board, manufactured by CARL MANUFACTURING CO., LTD. - TOKYO, is distributed in Italy exclusively by **BALMA, CAPODURI & C. s.p.a.**, which assures a **good after-sale service too**.

Descriptive notes: CARL DC-100N, ideal for home, school and office, employs a cutting system based on a rolling slicer moving on an appropriate mat (it is possible to cut also films, fabrics, etc.). The sheets blocking device is magnetic, the paper holder plate is illuminated, for a better vision of the sheet position before cutting, and the millimetre ruler is extractable. The cardboard packaging can be hung vertically.

In addition: it is possible to make either a straight or a perforation cut, as both cutters are supplied with the paper cutter; spare cutters are also available.

Safety: The CARL paper cutters completely match with the quality standards fixed for machines which must be used, always in maximum safety, in every working place, home, school and office. The practical safety cover avoids any accidental contact with the cutter.
