

"ZENITH" 580 GOLD

STAPLE-REMOVER

Materials:

- made in nickelated iron with small beak and plate with incisions in hardened and nickelated steel
- golden finishing (24 carats)

Weight: 78 g (net) / 116 g (gross)

Box dimensions: 17 x 11 x 1,7 cm

Descriptive notes: unique article for technical and aesthetic perfection, manufacturing procedures, ergonomic handle, high degree of finishing embellished in the "Gold" version with careful gold plating and an elegant box.

In addition: the steel parts which extract the staples (i.e. the wedge-shaped small beak and the incision plate), make the "ZENITH" 580 work perfectly practically for ever and maintain its exceptional performance over the years. "ZENITH" 580 easily removes "ZENITH" staples ref. 515-112-130 and other staples of different standards.

Quality: to maintain the high quality standard guaranteed by all "ZENITH" products, each staple-remover is tested piece by piece. *Life-guarantee for manufacturing defects.*

"ZENITH" 585 GOLD

STAPLE-REMOVER AND LETTER OPENER

Materials:

- small beak and plate with incisions in hardened and nickelated steel with golden finishing
- nickelated iron blade with golden finishing
- golden finishing (23 carats)

Weight: 44 g (net) / 55 g (gross)

Box dimensions: 26 x 3 x 1,8 cm

N° of items per carton: 10

Descriptive notes: a golden finishing embellishes and makes even more exclusive the elegant and sharp lines of ZENITH 585, thought to shine and stand out on the desks of those who love nice and useful objects.

In addition to being a handy letter-opener, it easily removes different wire staples: ZENITH MIL, ZENITH 130 series and other staples of different sizes.

Quality: to maintain the high quality standard guaranteed by all "ZENITH" products, each staple-remover is tested piece by piece. *Life-guarantee for manufacturing defects.*
